2019 ATLAS POSITIVE IMPACT REPORT

## Kind Words From the Special Olympics

“We are so grateful for the wonderful partnership we enjoy with Atlas Technologies. Special Olympics athletes are training, competing and thriving in record numbers around South Carolina, in sports ranging from bowling and basketball to tennis, golf, sailing, kayaking, swimming, even powerlifting. With support from Atlas, children and adults with intellectual disabilities have opportunities to develop physical fitness, demonstrate courage, experience joy and participate in a sharing of gifts, skills and friendship with their families, other athletes and their communities.”

# WORDS FROM OUR TEAM

The Day of Caring event at Northwoods Middle School was important to me as an ex-teacher. Teaching is really hard, underpaid and undervalued so creating a nice space for them was really rewarding.

Angela Quaranto, Technical Analyst

I've enjoyed working with many organizations this year, like being able to bring my family to park circle cares, where my children can see how kindness and generosity to those less fortunate can go a long way.

Sharon Nicini, Technical Analyst

Atlas's passion for creating a positive impact for our team, clients, community, and country naturally present more opportunities to get involved which I appreciate.

## Kind Words From March of Dimes

“March of Dimes is proud to partner with Atlas Technologies to help us lead the fight for the health of all moms and babies. Through their commitment we’re able to research breakthroughs such as electromyometrial imaging to better understand contractions, advocate for policies that prioritize maternal and child health, empower moms to take charge of their health and be there for families with programs like NICU Family Support® to provide lifesaving advanced medical care.”
